Job Title:**WIRE DRAW OPERATOR**

Job Code:

WD01BW

Department:

Production

Reports to:

Shift Supervisor

JOB DESCRIPTION

Responsible for the operation of equipment to draw rod into the wire using proper drafting techniques to insure proper quality production. May operate equipment requiring multiple drafts. Will use precision measuring instruments to determine proper size of finished products. Will band coils when necessary and properly tag and identify all product with information as directed, included size grade, heat number, vendor, weight etc. Will assist other departments personnel when rod and wire ends are pulled and pointed.

Will operate overhead hoists to load-unload rod and wire blocks, payoff reels, capstans, and boom flips. Will operate powered material handling equipment to move the product in the department.

Required to complete all S.P.C data and other forms and paperwork, also will keep records of material used. Will properly requisition and store supplies. Will perform any minor needed preventive maintenance on equipment. Will follow all proper established safety procedures and maintain good housekeeping in the department. May be assigned other duties as required by the supervisor.

TYPICAL PARTS

The above description covers the most significant duties performed but does not exclude other occasional work assignments not mentioned. The inclusion of which would be in conformity with the factor degrees assigned to this job.
